Description

The Datec **TEMPERATURE SENSOR** is for temperature measurements in the following areas:

- Fan coil
- Air conditioning
- Refrigeration
- Heating

The sensor characteristics are suitable for the **Fancoil actuator**, Art. 1730.02120/55100.

Technical Data

Housing	Nickel-plated brass Ø 7x38mm
Cable	
Conductor	Cooper conductor tinned, twisted pair 1x2x0.8mm ²
Minimum bending radius	50mm
Length	On request, max. 30m (standard 5m)
Temperature range	-20°C to +70°C
Weight	0.13kg with 5m cable
